As Chairperson of the Ethics Committee of the North Carolina Substance Abuse Professional Practice Board, I have reviewed the allegations against you, all submitted evidence, and your response. From this information it appears that the allegations are with merit.

Pursuant to G.S. 150B-22 and Article 5C of Chapter 90 of the North Carolina General Statutes, the Ethics Committee may find that a hearing before the Board is not warranted and issue various levels of discipline, depending upon the misconduct, the actual or potential injury caused, and any aggravating or mitigating factors. In this situation, the Ethics Committee may issue an Admonition.

As a result of this process, you have been offered and you have accepted an informal resolution of this matter, an Admonition.

An Admonition, which is the least serious form of discipline authorized, is imposed in cases in which a substance abuse professional has committed a minor violation of the Rules of Professional Conduct given the measure of actual harm experienced and mitigating factors.

As Chairperson of the Ethics Committee of the North Carolina Substance Abuse Professional Practice Board, it is now my duty to issue this Admonition and I am certain that you will fully understand the spirit in which this duty is performed.

This action is based on a finding that you have two convictions for driving while intoxicated; the more recent conviction appears to be the result of the effects of prescribed medication.

The mitigating factors include the fact that only one conviction was recent and as a result of prescribed medications, your cooperation was evidenced by your attending a meeting with the Ethics Chairman to resolve the matter informally and providing other requested documentation, and the fact that you continue to be under a physician's care.

Done and ordered, this the 30 day of June 2014.
